

# AFFORDABLE Driving School

## CONGRATULATIONS ON BEGINNING YOUR DRIVING LESSONS!!!

This handout will let you know important things to remember and what to expect throughout your training process:

- Your driving lessons are broken down into **three** 2/hour sessions. You are only allowed to secure **one** 2/hour appointment on the schedule at a time, unless you have purchased the accelerated option.
- **Scheduling:** To schedule your driving lessons, you have 2 options, you may call the office to schedule your driving lessons, *or* you can login to your online portal through A.D.S. and schedule.

Appointment reminders are sent out 48 hours and 24 hours by text and/or email. Make sure to confirm your email or cell for reminders.

- **Cancellation list:** In your portal you can view the scheduling calendar, when you click on a date that is **YELLOW** you will see an option that says "Email me if this period becomes available" by clicking the box the computer system will email you letting you know that student has cancelled their appointment and will ask if you would like to "secure that time slot?" You may choose multiple time slots to be notified **\*\*Note: If you choose to take the earlier slot your later appointment will be taken off the schedule, as you can only secure one appt at a time.**

3:00 PM - 5:00 PM — Mr. Jason Salazar  
120 minutes performance

Registered: Jack

Pick Up: Parker Affordable Driving School Office/Classroom

Drop Off: Parker Affordable Driving School Office/Classroom

There are no seats available.

Email me if this period becomes available.

- **We require 24-hour notice for cancellations.** \*A \$65 dollar fee will be assessed for no-shows and late cancellations.\*
- **Be ready and on time!** Have your **permit ready** and dress appropriately along with **closed-toed shoes**. There is a **15 min** grace period. Arriving any later will be considered a late cancellation.
- **What to expect during lessons:** Each student will sign off on a DR2070 form after each lesson. We also keep skills observation sheets on each driver. After each lesson the instructor will critique and go over skills observed and give them "homework" to work on in between with parents.
- **After completing your lessons,** the DR2070 will be submitted to the DMV directly. It will stay on their permanent driving record, and you will receive a copy of the submission. This email will come from the **Dept. of Revenue**, not A.D.S. and many times it will end up in your SPAM folder. This is what you can send to your vehicle insurance company and hopefully get a discount!!
- **Driver's license test:** The driver's license test is not part of the lessons, it is a separate service. You can call the office to see if it is included in the package you purchased, if not we can always add it. Your child will not need to take another written test, just the physical on road examination. Once your child passes the driver's test, we will submit the results to the DMV and they will have the option to upgrade from a permit to a license digitally or go to the DMV with an appointment.

**THANK YOU FOR CHOOSING AFFORDABLE DRIVING SCHOOL FOR YOUR DRIVERS' EDUCATION!!**
